Re: Motormen and conductors who were in service on  
the Eastern Ave. line, Sept. 14th, 1922.

Operative received instructions to bring  
some papers from Mr. Watson's office to Mr. McCarter's  
office in Newark.

Made inquiries for George Wieman at 527  
Springfield Ave., Newark (this address was furnished  
by the Public Service) but could not find anyone who  
knew Mr. Wieman at this address.

Went to Passaic in an effort to locate  
George Baily at 115 Locust Ave., Wallington, N.J.  
Could not find Baily located there and no one knew him.

Also made inquiries while in Newark around  
Hamilton St. to locate Mr. Baumgartner, but no one  
in that vicinity knew him.

These addresses were furnished by the Public  
Service Railway to Mr. Watson, but believe they must  
have taken them from the men's applications as they  
seem to be old addresses. Will have to get better  
addresses.

Respectfully submitted:
